Description :

PDF-bfc30 | Children in the U.S. are not faring well. Despite major advances in public health, hygiene, and treatment for acute infections, child health outcomes in the U.S. are among the bottom for developed countries. As we enter the third decade of a child obesity epidemic, children born in the last ten years are now likely to have a shorter lifespan than their parents. Coupled with an epidemic of childhoo... *Child Health: A Population Perspective*
