Description :

PDF-8852e | The biography of a multifaceted technological object, the IUD, illuminates how political contexts shaped contraceptive development, marketing, use, and users. The intrauterine device (IUD) is used by 150 million women around the world. It is the second most prevalent method of female fertility control in the global South and the third most prevalent in the global North. Over its five decades of us... *The Global Biopolitics of the IUD: How Science Constructs Contraceptive Users and Women's Bodies (Inside Technology)*
