Description :

PDF-56639 | Aging Baby Boomers want to grow old—and maintain their health—on their own terms. Digital technologies are creating a new kind of old, enabling individuals to remain vital, engaged and independent through their later years. But it has to be the right technology, designed for an aging population, not just what technologists and app developers think people want. Social robots, artificial intelli... *The New Mobile Age: How Technology Will Extend the Healthspan and Optimize the Lifespan*
