Description :

PDF-e7226 | In today's era, we are forced to realize that outbreaks can occur at any moment. From anthrax to the avian flu, potential outbreaks can spread rapidly through air, water, and other means. Hospital personnel are now being trained to understand and monitor outbreaks in health care facilities. Professionals both in the private health care sector and the public health system now need to recognize, inv... *Outbreak Investigation, Prevention, and Control in Health Care Settings: Critical Issues in Patient Safety*
